

# Pro Chip Activation & MyLaps registration

## STEP 1: Activate the Pro Chip

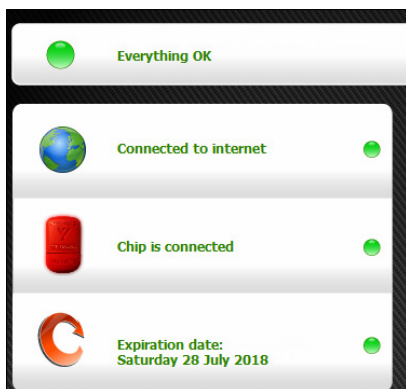

1. Download the Pro chip Flex manager software onto your PC: <https://www.mylaps.com/support/software-firmware/>

2. Once downloaded, connect your Pro chip to your PC via the USB port, then run the Prochip flex manager software. You should have a page open-up like the below image. Your Chip id will be displayed.

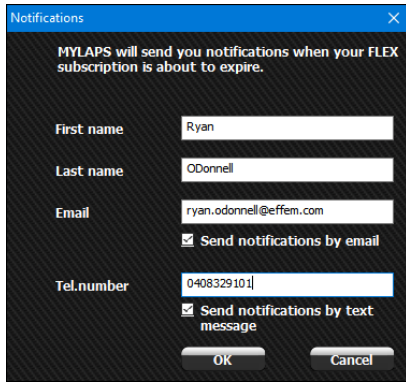

3. Click on the activate button. Once activated there will be a Green circle at the top with "Everything OK", & you will see that there is now an expiration date at the bottom (+12 months) from today.

4. Enter in your personal details in the Notifications button – top right corner next to the “?”

Notifications

MYLAPS will send you notifications when your FLEX subscription is about to expire.

First name: Ryan

Last name: ODonnell

Email: ryan.odonnell@effem.com

Send notifications by email

Tel.number: 0408329101

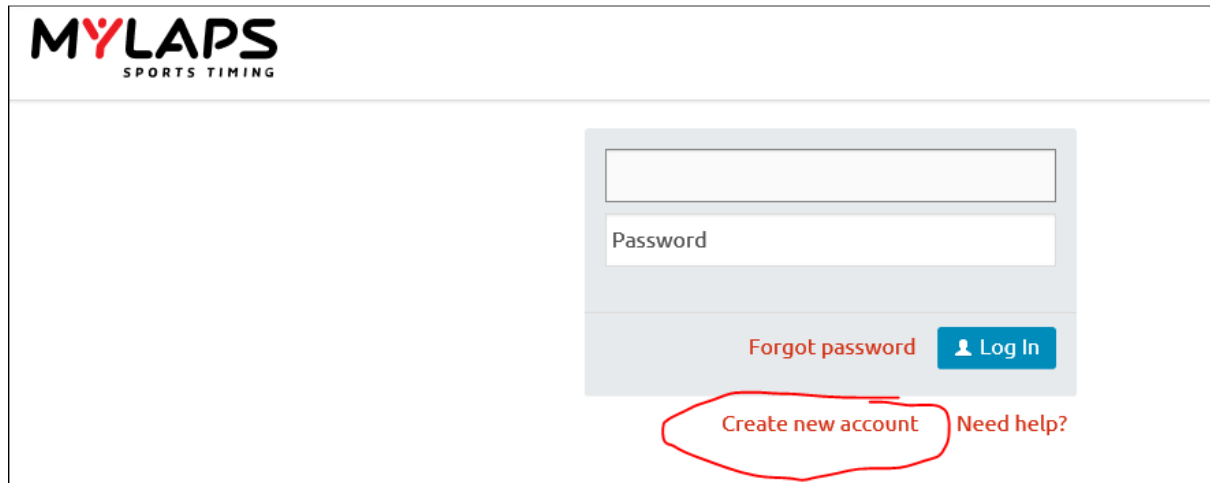

Send notifications by text message

OK Cancel

5. Enter your details, then hit OK.....Job done☺, you will receive either an email or text to your mobile when registration is close to running-out (in less than 12months time), you will then need to re-subscribe.

## STEP 2: Create an account in MyLaps & link your Pro Chip to your account.

6. Go to: <https://account.mylaps.com/am/UI/Login?goto=http://account.mylaps.com> to create an account.

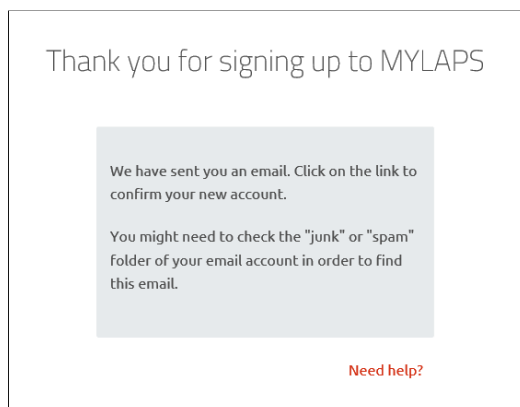

MYLAPS

[Forgot password](#)

[Create new account](#)
[Need help?](#)

7. Once you create the account you will receive a verification email to confirm your new MyLaps account.

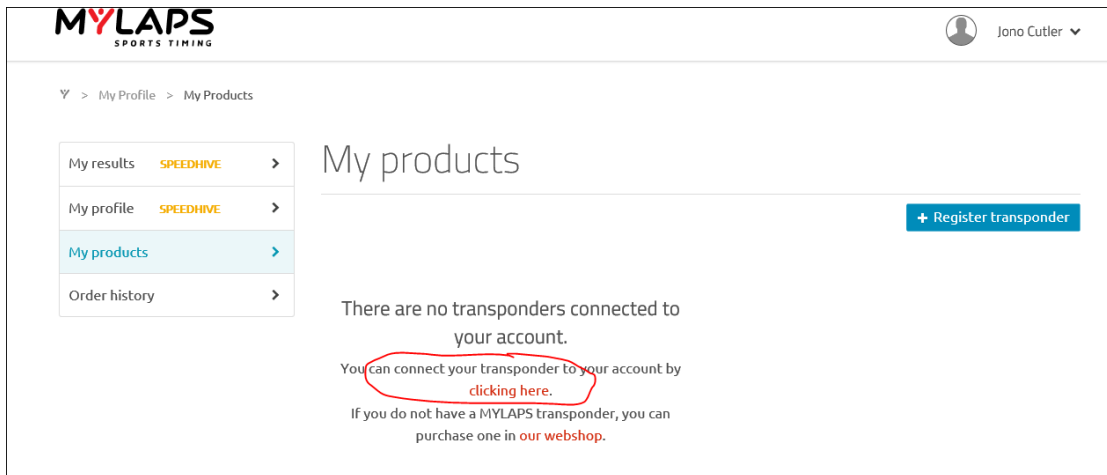

Thank you for signing up to MYLAPS

We have sent you an email. Click on the link to confirm your new account.

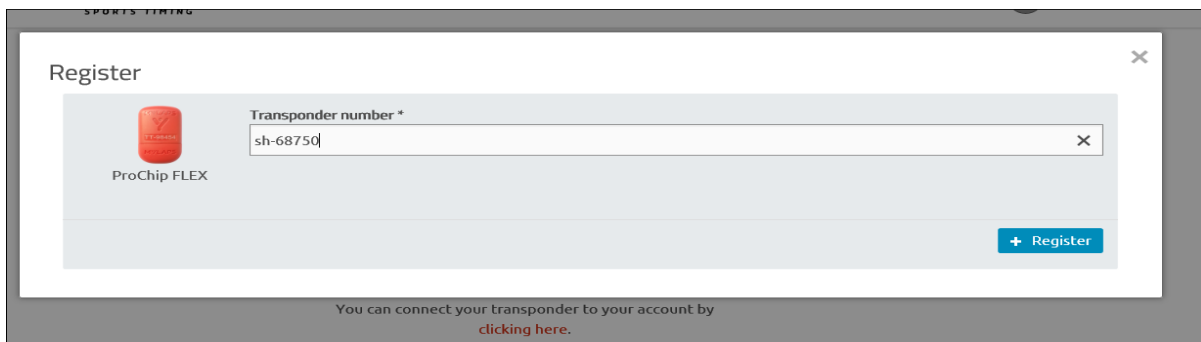

You might need to check the "junk" or "spam" folder of your email account in order to find this email.

[Need help?](#)

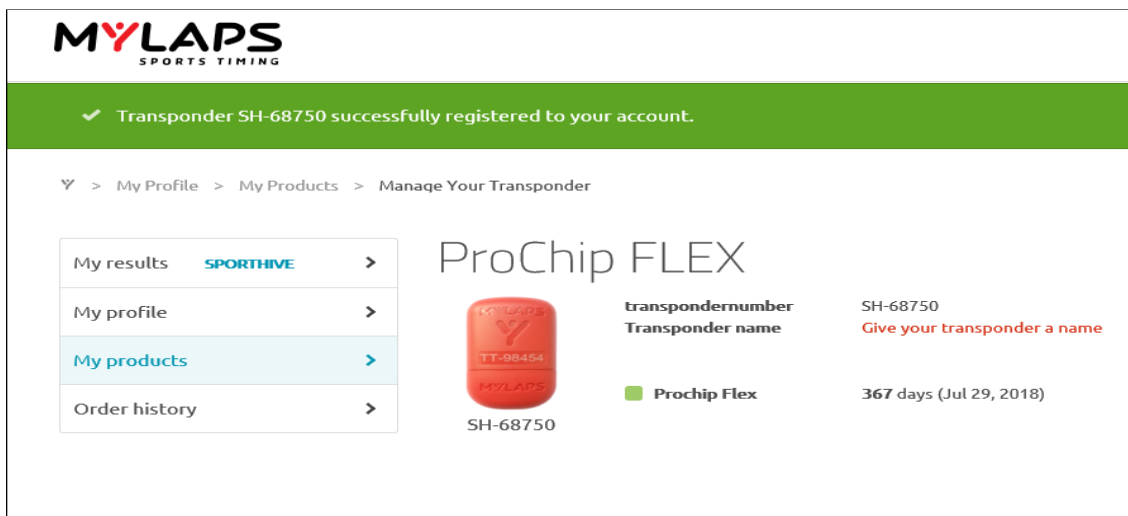

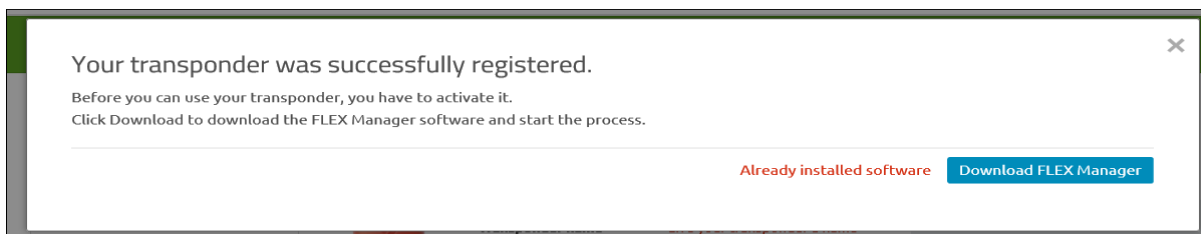

8. Once confirmation done via the email link, you will then be prompted to set-up your password.
9. You can now login to your account, to then enter your personal details (under my profile tab) & connect your transponder (Pro Chip) to your account:

10. Enter in your Pro Chip number, then Click on "Register":

11. You should then get this confirmation pop-up, click on the "X" to close as you have already downloaded the Flex Manager software:

12. Job done....all finished, you can now log-out of the MyLaps site.
